

UAE SHIPPING GUIDE

Using Amarex Shop & Ship

We have found that shipping from the UK to UAE can be challenging with items often being rejected at customs. After looking into ways we can make this process easy we have come across Amarex. Amarex's Shop & Ship service seem to be able to ship items from the UK into the UAE much more smoothly.

Here is your guide on how to use their service to ship your KOMPAK order:

- 1** Head to www.shopandship.com and create an account.
Top Tip - Google voucher codes & you should be able to find one for free joining.
- 2** As we are a UK business you will need to find the UK address in the Shop & Ship global list. Enter this address as your shipping address in the KOMPAK checkout
- 3** Make sure you include your Shop & Ship Account Number in 'Address 2'. This is how Amarex knows your home address when they receive your parcel in the UAE and how they charge you for this service.
